ABOUT ME

Software Engineer with hands-on experience in building scalable, secure, and high-performance applications across the full stack. Proficient in modern frameworks and technologies including React, Node.js/NestJS, PostgreSQL, and cloud platforms (GCP/AWS), with a focus on clean architecture, performance optimization, and maintainability. Skilled in implementing robust access control, encrypted data handling, and compliance-driven solutions. Strong grounding in distributed systems, APIs, and blockchain technologies, complemented by experience in agile teams delivering end-to-end user-focused products. Adept at problem-solving, collaborating across disciplines, and driving projects from concept to deployment with ownership and accountability.

EDUCATION

Bennett University Bachelor of Computer Applications (Honours) *Sep 2022 – Jul 2025*
Greater Noida, Uttar Pradesh, India | bennett.edu.in CGPA: 8.78/10

- Coursework: Algorithm Design Strategies, Operating Systems, Object-Oriented Programming (Java), Blockchain, Cryptography, Database Management, Distributed Systems.
- Capstone Research: Blockchain interoperability protocols in collaboration with DRDO and Astraeus Next Gen.
- Honors: Outstanding Academic Achievement in two consecutive semesters with SGPA scores of 9.48 and 9.2.
- Activities: Active member of ICB Student Chapter; participated in hackathons and technical symposiums.

Indirapuram Public School Senior Secondary (CBSE) *Jul 2021 – Jul 2022*
Ghaziabad, Uttar Pradesh, India | ipsindirapuramncr.com Percentage: 67.2%

Indirapuram Public School Secondary School (CBSE) *Jul 2019 – Jul 2020*
Ghaziabad, Uttar Pradesh, India | ipsindirapuramncr.com Percentage: 75.2%

WORK EXPERIENCE

Freelance Web Developer — Adbhut Global *Remote, India* *Apr 2025 - May 2025*
adbhutglobal.com

- Built and deployed a responsive website using React, HTML, and Tailwind CSS.
- Improved user engagement by **40%** and reduced bounce rate by **25%** with a mobile-first, UX-driven approach.
- Enhanced performance through image optimization, lazy loading, and CDN integration.

Blockchain Developer Intern — Astraeus Next Gen *Remote, India* *Dec 2024 – Apr 2025*

- Developed proof-of-concept cross-chain bridges using Solidity, Hardhat, and Ethers.js.
- Maintained **90%+ test coverage** for smart contracts; contributed to peer code reviews in agile sprints.
- Authored setup and deployment documentation to support internal onboarding and code reuse.

Blockchain Research Intern — DRDO (Defence Research and Development Organisation) *Delhi, India* *Jan 2025 – May 2025*

- Investigated trustless cross-chain communication protocols for blockchain interoperability.
- Focused on secure asset transfer mechanisms across Ethereum-compatible chains.
- Created technical diagrams and draft documentation for research proposals and publication support.

LANGUAGE SKILLS

English Proficiency – IELTS (Academic)

Overall Band Score: 7.0 **Listening:** 8.0 **Reading:** 6.0 **Writing:** 7.0 **Speaking:** 6.5

SKILLS

Frameworks & Libraries	React, Node.js, NestJS, Express.js, Tailwind CSS, Ethers.js, Hardhat
Programming Languages	JavaScript (ES6+), TypeScript, Python, SQL, Java, C++, Solidity
Databases	PostgreSQL, MySQL, MongoDB, Firebase, Supabase
Cloud & DevOps	Docker, Git & GitHub, CI/CD Pipelines, Cloud Deployment (AWS, Firebase, adaptable to GCP)
Developer Tools	Postman, VS Code, Docker Desktop
Core Competencies	Full-Stack Web Development, RESTful API Design, Authentication & Authorization (JWT/OAuth), API Integration, Distributed Systems, Data Modeling, Agile/Scrum Methodologies
Soft Skills	Technical Communication, Team Collaboration, Problem-Solving, Critical Thinking

PROJECTS

IditTrack (July 2025 – August 2025) Micro SaaS Inventory & Order Management System [GitHub Repo](#)

- Architected and developed a full-stack web application using React, Node.js, MongoDB, and REST APIs, following modular design principles.
- Implemented core modules for product catalog management, order tracking, and FTP-based file uploads; planned POS API integrations for real-time transaction handling.
- Containerized the application with Docker to streamline deployment, enable scalability, and ensure environment consistency.

BurgerHut (June 2025) Restaurant Website with Authentication & Order Flow [GitHub Repo](#)

- Built a responsive web platform using PHP, MySQL, HTML/CSS, and JavaScript with secure login/signup, session handling, and order management workflows.
- Designed a clean, modular folder structure for maintainability and local deployment via XAMPP.

HemoChain (July 2024 – Dec 2024) Ethereum-based Blood Donation Management System [GitHub Repo](#)

- Developed a healthcare platform with React frontend, Solidity smart contracts, and IPFS for decentralized donor-recipient data storage.
- Integrated MetaMask for secure blockchain authentication and transaction signing.
- Collaborated in an agile team to design data validation logic, implement API integrations, and streamline user workflows.

Image Carousel (July 2023) Responsive Image Carousel Component [Live Demo](#) | [GitHub Repo](#)

- Created a custom React carousel with smooth animations, lazy loading, and mobile-first responsiveness.
- Built reusable, modular components for seamless integration into larger projects.

CERTIFICATIONS

Blockchain Basics	Coursera – University at Buffalo	R4JUF8CEGFE5
Smart Contracts	Coursera – University at Buffalo	W4N5JM7YVYNU
Blockchain Platforms	Coursera – University at Buffalo	LLQ33LSJH7UQ
DApp Development	Coursera – State University of New York	VFABPJNPGS6E
Cryptography	Coursera – Stanford University	OWQ67B639L8N

CO-CURRICULAR

Hackathon Experience Applied full-stack, API design, and blockchain expertise in multiple national-level competitions, delivering production-ready prototypes under tight deadlines.

- **HackFest Delhi/NCR** – Engineered full-stack decentralized applications with secure authentication and optimized data flows.
- **EDU Chain Hackathon** – Built NFT-powered academic credential verification platform with smart contract integration.
- **HacknChill 2024** – Developed a blockchain-enabled event ticketing system with real-time on-chain validation.
- **Smart BU Hackathon** – Ranked in top 15% for designing an IoT automation bot with robust backend control logic.

Tech Events and Industry Engagement Actively engaged with developer communities and emerging tech ecosystems to strengthen domain expertise.

- **Global AI Summit 2024** – IEEE UP Section, Bennett University – explored AI-driven system optimization approaches.
- **Solana and Polygon Blockchain Meetups** – Microsoft (Noida & Gurugram) – learned scalable Web3 application patterns.
- **Bharat Blockchain Week** – AICTE Auditorium, New Delhi – discussed blockchain adoption in enterprise-grade solutions.

Leadership & Collaboration Completed a 30-hour certified leadership program, "*Empowerment and Growth: Shaping Tomorrow's Leaders*" (June 2024), focusing on agile team coordination, sprint planning, and collaborative software delivery.

Community Contributions Volunteered for Bharat Blockchain Yatra 2024 – supported event operations, developer outreach, and partner relations.
